Notes:

¹ See department list for courses that satisfy the Biology/Life Science elective requirement

² Engineering courses are to be at the 200 or higher level and cannot include seminar courses. Engineering research credits at the 400 level or higher may be used to satisfy this requirement. Up to 8 credits of ChE 490 or ChE 695 research may be taken for a grade. Beyond that, ChE 490 or 695 credits must be take pass/fail.

³ Either Physics 390 or Materials Science 242 can be taken to fulfill the Chemistry 261 requirement

⁴ ChE 488 and 489, the Chemical Product Design two-semester sequence, is available as a substitute for ChE 487 for a limited number of students.

(+) Students must earn a "C-" or better in prerequisite courses indicated by the (+)
